

Midway, Posters Promote Groups

• PRELIMINARY PLANS for the annual Activities Fair on Friday, February 18, were made at an organizational meeting on January 6.

"The purpose of the Activities Fair is to acquaint both old and new students of the University with the many activities in which they may participate," said Barbara Stuart, Student Council Freshman Director and chairman of the Fair.

The Fair Midway will be in Lisner Lounge where about twenty of the groups will have booths. A proposal has been made that activities which do not qualify for booths in the Lounge should place posters on the first floor.

The Fair will begin at 8 p.m. with a spotlighting of each booth in succession by Barker Jack Thorne, remembered as "emcee" at the Goat Show and during the Homecoming activities. As each booth is spotlighted, the members of the organization featured will give a skit, dance or sing or the Barker will explain the club. The Modern Dance Groups, Pep Band and Cheerleaders will perform.

After the program, students will be invited to talk with the people at the booths housing the activities in which they have an interest.

There will be a drawing for a grand prize and the winner will be announced at a dance immediately following the fair. The dance, sponsored by the Columbian College and the Junior College, is primarily for first-year students.

Last year's Activities Fair was held in the fall. This year, because of the new delayed emphasis on activities for freshmen, the Fair is being held during the second semester. It is hoped that many more students will be attracted by the later date, since new students have by now had an opportunity to become more familiar with the University's program of activities. Clubs are asked to submit by January 13 either their preliminary ideas for the programs.

Famous Air Force Band Gives Concert Program

• THE UNITED STATES Air Force Band, Symphony Orchestra and the "Singing Sergeants" will present a joint concert at Lisner Auditorium on Wednesday evening at 8:30, a program of the Colonial Program Series.

The program will be conducted by Colonel George S. Howard and will feature two soloists, Master Sergeant Bill Jones, baritone, and Staff Sergeant Bill DuPree, tenor. The first half of the program will be performed by the USAF Band, while the Symphony Orchestra and the "Singing Sergeants" will be presented in the latter half.

Appearing as guest conductor of the Air Force Band will be commander Charles E. Brendler, Leader of the U. S. Navy Band, who will conduct Wagner's "Eine Faust" overture and Strauss' "Till Eulenspiegel's Merry Pranks."

Other compositions scheduled for performance include Enesco's "Rumanian Rhapsody," Britten's "Prelude to a Drama," Moniuszko's "Halka" overture and the "Duet" from Dubois' "Seven Last Words of Christ."

No tickets are required. The Air Force Band was organized in 1942. Since then it has played all over the United States, and pioneering in a theory that a musical organization could be

IFC Delegate Makes Report

• RUSHING, the drinking question, better public relations and the responsibilities of the fraternity to the school were some of the subjects discussed at the 46th annual session of the National Interfraternity Conference.

This year's meetings were held at the Bellevue-Stratford Hotel in Philadelphia with 61 fraternities represented. Each university or college interfraternity council sent a delegate and an alternate to the governing body's conference.

Howard Roberts, President of IFC at the University, and Laurence Locke, member of Acacia Fraternity, attended the conference. Upon their return they reported to the IFC the resolutions passed by the Conference.

These included a decision to make a movie on fraternity life to be shown to rushees, plans for sending out copies of the panel discussions of the Conference to member fraternities, and the informing of national fraternities of court and state action on rushee selectivity.

The work of the NIC is fact-finding, exploratory and advisory. Through its facilities fraternities having difficulties with problems may obtain advice and solutions from the experience of other fraternities. It fosters a feeling of friendliness and cooperation among fraternity men throughout the United States.

Each year the NIC sponsors a competition among interfraternity councils of accredited colleges and universities throughout the country.

Wandering Troupers Return, Tell Stories About Cold Trip; Airman Expresses Gratitude

by Carole Hesse

• ON JANUARY 2, at 11:45 p.m., Bolling Field witnessed the safe landing of the University Traveling Troubadours, the singing troupe which had spent its Christmas holidays entertaining American Armed Forces in the frozen north.

Sixteen girls and twelve boys made the trip. They were accompanied by their director, Dr. Robert Harmon and Mrs. Harmon. In a tour sponsored by the North East Air Command, they left Washington December 17, heading for their first stop, Westover, Mass.

THE TRAVELING TROUBADOURS
... Singers Entertain in Freezing Weather

Career Conference Aids Work Choices

• THE UNIVERSITY Career Conference will be held on the evening of Wednesday, March 9. Co-chairmen of the conference are Sue Scott and Bob Riggs.

Not only University students, but also area high school students are being invited. The purpose of the conference, states Carolyn Berk, Conference Forums Director, is to give to those University students who are not sure of their choice of a professional field an opportunity to listen to an expert in that field and to ask him questions about it. High school students who attend the conference will be shown the importance and usefulness of a college education, no matter which college they attend.

Three HATCHET editors, Ed Jaffee, Bob Riggs and Joan Drew, were among those admitted to membership. Others were Peggy Nichols and Harry Hughes from the Cherry Tree and Casper Mohl and Thomas Flannagan from Mechelectiv.

John Stockton, president; Doris Johnson, vice-president; and Sue Scott, secretary of Pi Delta Epsilon, conducted the initiation ceremonies. Dr. Elbridge Colby, Professor of Journalism, and Dr. Franklin Dunham, chief of the radio-television division of the United States Office of Education, were guests of honor.

Dr. Dunham, who is one of the founders of Pi Delta Epsilon, spoke briefly on his early associates with the fraternity some forty years ago when he was a campus editor at Columbia University. After relating several amusing anecdotes of his college years, Dr. Dunham charged the new initiates and the older members present to always keep their standards of journalistic ethics.

He spoke of the unfortunate tendency among new journalists to seek the sensational rather than the good in news coverage. "We live in two worlds," he said, "a real world and a world which is reported to us. It should be the duty and the goal of every journalist to bring those two worlds as close together as he can."

A well-known figure will speak at the opening of the Conference at 7:30 p.m., following a dinner for the speakers. After the speech, the audience will separate and reconvene at the individual forum meetings, which will be held in Monroe Hall and in the Hall of Government. Each of the forums is being sponsored either by a department of the University or by a professional fraternity. A student of the University will direct each forum.

One or two experts from each field will state the opportunities and the needs, the advantages and the disadvantages of their particular profession. General question-and-answer periods will follow the speeches.

Free doughnuts and coffee will be served at the Student Union following the forum meetings.

Last evening and today preliminary meetings were held by the Committee in order to distribute essential information to individual forum chairmen.

Any forum chairman who was not present at either meeting or any sponsoring organization which has not yet selected a chairman should contact Carolyn Berk immediately. She can be reached at Strong Hall.

Pepperell Air Base and Harnen Air Base, both in Newfoundland, were next on the itinerary. Then came Narsarsuaq, Sondrestrom and Thule Air Bases, all in Danish governed territory in Greenland. Finally, after stops at Frobisher Bay and Goose Bay, Labrador, the group turned back, restopping at Pepperell and Westover.

At Thule, in the Base gymnasium, the troupe sang Handel's "Messiah" on Christmas eve, inviting volunteers from the audience to come on stage and join them in the ringing "Halleluia Chorus." The Troubadours also entertained along the way with a Variety Show, featuring a girls' trio, a boys' quartet, a duet, and the folk dancing of Tom Pence and Loydell Jones.

At Goose Bay, half the troupe took a helicopter ride to Hope-dale, an isolated radar station where no American girl had ever set foot before. During a performance of the Variety Show in a crowded airplane hanger, soprano Ruth Berryman met with a black eye when she bumped into a jet propeller. Several cases of laryngitis and sniffles were the only other casualties reported.

Jonila Emory, on her first such trip, summed up the feelings of all, saying that the trip had made a lasting impression on her because of the overwhelming gratefulness shown everywhere, and because of the close unity among

(See TROUBADOURS, Page 2)

Show Unveils Queen, Styles

• CROWNING OF THE 1955 Cherry Tree Queen will be a special feature of the Fashion Show February 25. The choice is among the three finalists, Barbara van Ackeren, Lyn Stayer and Sharlie West, selected in December by Jon Whitcomb, popular magazine illustrator.

Boys are especially invited to come along to see what their girls will be wearing this spring. Door prizes for the gentlemen as well as the young ladies will be awarded. The girls will receive free samples of cosmetics.

Fashion Show chairman Pat Reed announced that Chick Wayne's Quartet will play at the show. Julius Garfinkel will provide the fashions and models.

Helping Miss Reed with plans for the show are Bob Gray as publicity chairman, Mary Dodson as special assistant, Charlene McDonald as tickets chairman and Betsy Belton as corresponding secretary. Ellie Boggs is handling the brochure for the show.

The Fashion Show is a Student Council sponsored project planned as part of the Campus Combo social program. Admission will be by Combo ticket or 75 cents.

There will be a meeting for the Fashion Show committee today at 1 p.m. in the faculty club.

COLONEL HOWARD

come an ideal ambassador of a nation, it has made five international tours as a good-will ambassador for the United States.

The Band has appeared in 26 countries before audiences which sometimes have been larger than the population of the city in which the concert was given. It is the only American musical organization which has ever played for a Royal Garden Party at Buckingham Palace.

Bulletin Board

AKPsi Holds First Fair; Clubs Meet for Pictures

• **ALPHA KAPPA PSI**, national professional fraternity in business administration, commerce and finance, is sponsoring the first annual Business Fair, "Better Administration Through Mechanization," during this week. Nine business machine companies are assisting with the fair, and there will be a variety of descriptive material available to visitors.

All students of the University are invited to visit the Fair which will be in operation continuously through Friday, January 14, on the second floor of the Student Union annex.

• **SIGMA ALPHA ETA** will meet tonight at 8:30 in Studio B of Lisner Auditorium. The picture for the Cherry Tree will be taken and Dr. Stanley Berlinsky will speak on "Speech Problems Related to Brain Injury." Following the meeting, refreshments will be served.

• **STUDENT CLUB** patrons will be glad to hear that there will be a Student Club Dance tomorrow from 12:30 to 1:30 to the music of Chick Wayne's Trio.

• **TASSELS** will hold its meeting this afternoon at 5 p.m. at Woodhull House, instead of their regular meeting time. All members are urged to attend.

• **APPLICATIONS** for membership on the Student Union Board will be accepted until Friday, January 14, at 5 p.m. The members of the Board will aid the Chairman in carrying out the rules of the Union and in developing and improving its facilities. Freshmen, sophomores and juniors are eligible to apply.

• **ALPHA LAMBDA DELTA'S** Cherry Tree picture will be taken tonight promptly at 7:30 in Woodhull House. All members are requested to be on hand.

• **THE SCHOOL OF GOVERNMENT'S** Sub-Council will hold its January meeting this afternoon at 5 in the Council Room of the Student Union Annex.

• **THE PANHELLENIC SING** is scheduled for March 16. All titles must be submitted by January 17,

and each sorority may begin practice on February 16.

• **FUTURE TEACHERS** of America will meet on Thursday afternoon, January 13, at 3 in Room C of Woodhull House. Mr. Frederick Lukens, of the Education Association of the District of Columbia, will speak on "The Value of Associations in Professional Life." The Cherry Tree picture will be taken on Wednesday, January 12, at 4 in Room C of Woodhull House.

• **THE NEWMAN CLUB** will present the final lecture in its Courtship and Marriage series by Fr. Louis Miltenberger tonight at 8:50 in Monroe 100. On Sunday, January 16, the club will hold its monthly Communion and breakfast. There will be no meeting next Tuesday.

• **PROFESSOR ALAN T. DEIBERT**, advisor to foreign students, is holding his midwinter tea for foreign students this afternoon at Woodhull House from 4 until 6.

Among those who have been invited to pour are Mrs. Joshua Evans, member of the Board of Trustees; Miss Rosalie Arnold, president of the International Student Society; Mrs. George Koehl, wife of the Acting Dean of the Junior College; and Miss Myrna Sedgwick, Administrative Secretary of the University.

About 150 students have been invited including American members of the International Student Society.

• **THE UNIVERSITY'S** Annual Alumni Fund Campaign, which has replaced the traditional one dollar per year dues, began yesterday.

Mr. Stanley J. Tracy, President of the General Alumni Association, invites all alumni of the University to support this campaign. All donors will enjoy annual membership privileges.

• **DR. DON C. FAITH**, Director of Men's Activities, will speak at the B'nai B'rith Hillel House, 2129 F St., N. W., Thursday night at 8:15 on "Dangerous Ways of Thinking."

Teacher Tests Show Ability, Provide Guide

• **FRIDAY, JANUARY 14**, is the deadline for registration for the National Teacher Examinations to be given by the Education Testing Service, on February 12, in Room 1, Hall of Government.

The examinations are open to all who wish to take them, upon proper registration. An increasing number of school systems are making use of them in the selection of teachers. All candidates for the degree of Bachelor of Arts in the School of Education are required to take the examinations.

The examinations will be administered by Blake S. Root, Professor of Education. Applications may be obtained from Dean James H. Fox in the office of the University's School of Education, Monroe Hall, Room 202.

The tests are prepared and administered annually by the Educational Testing Service of Princeton, N. J.

Fees for examinations range from \$7.00 to \$13.00. Veterans under Public Law 346 who are required to take the examination will have their fees paid by the Veterans' Administration.

Contest Offers Writers Prize

• **UP TO \$4,000** in prizes are available to college students interested in entering the new Christopher Contest for a good short story to be dramatized on television.

A first prize of \$1,000 will be given away in addition to second, third and fourth prizes of \$750, \$500 and \$250 and 15 prizes of \$100 each. The winning story will be made into a Christopher film.

Contestants have a choice of four subjects, "Teenagers Can Shape the Future," "Improving Labor Relations," "Earnings and Property—The Right of All," and "Changing the World Through the Housewife."

All entries should be in story form containing about 1,000 words and have sufficient dramatic interest to serve as a script. Entries should be typewritten with the author's name and address on the first page. No entries will be returned, but any money received through the sale of one will be sent to the writer.

The contest is open to all college students in the U. S. and Canada. Prizes will be awarded to the first 19 regardless of the subject on which they are written, and no prizes will be given if, in the opinion of the judges, no entry merits one.

Closing date of the contest is March 31, 1955. All entries must be addressed to the Christopher College Student Contest, 18 East 48 St., New York 17, New York.

Graduating? Failing? Find Good Job Here

FULL TIME

• **ADVERTISING-PROMOTION.** Woman wanted by local radio-TV network to make up ads for magazines. Should know something about market research techniques; program advertising and talent promotion. \$325.

• **ANALYST - LABOR** relations department. Trade association wants young person for research job. Economics statistical background desirable; knowledge of radio and TV industry helpful. \$300 to \$500.

• **ASSISTANT MANAGER**, foreign department of bank. Local bank wants young man with foreign affairs or economics background and, if possible, banking or export-import experience. Age 28-40. \$4500.

• **CARTOGRAPHIC ILLUSTRATOR.** Nationally known organization wants two men, artistically inclined, to do some cartographic drafting. \$3600 to \$4000.

• **MATHEMATICIAN.** In university assessment division. B. S. in mathematics or equivalent plus additional experience and interest in scientific or engineering experimentation. Job will be at Patuxent River, Md. U. S. citizen only. Excellent salary.

• **PSYCHOLOGY-HUMAN ENGINEERING.** Research branch, government lab, wants B.A. or M.A. in psychology plus some technical background (math or engineering). GS5 to GS9.

• **PUBLIC RELATIONS DIRECTOR** of services to public schools. Job in New York state directing a program by literature to schools through committees. 30-35 years of age. Travel involved. \$10,000 to \$14,000.

• **RESEARCH ASSISTANT.** Neuropsychiatric research for government agency. Typing plus some knowledge of statistics. \$3,095.

• **SECRETARY - ASSISTANT** for non-profit organization. Congressional contacts, some chance for writing. "Girl Friday" job for organization concerned with civil liberties legislation. \$250 month.

• **TEACHER.** Local girls' school wants math teacher. B.A. with some experience. \$2400 to \$4500.

PART TIME

• **BOOKKEEPER.** 2 to 3 hours per day; can be arranged. Local store. \$1.50 hr.

• **CASHIER.** Local garage wants man Tues., Thurs., Sat. p.m. from 4 to 12. \$1.05 hr.

• **COMPANION-MALE**, to older man on occasional afternoons and evenings. \$1.00 hr.

• **GENERAL CLERICAL**, boy or girl for local office to do typing and filing. 4 hours per day, afternoon or morning. \$1.50 hr.

• **HOTEL DESK CLERK—male.** Live in near campus. Answer switchboard; be able to meet the public. Room plus \$20 wk. Hours 4 to 12 p.m.

• **INVENTORY.** Store with branches in Arlington and on upper Conn. Ave., main store downtown wants morning help in all locations on Sunday, Jan. 16. Minimum of \$5. \$1.00 hr. over five hours.

• **SECRETARY.** Part time jobs in law and business firms for girls who know shorthand or speed-writing. \$1.25 to \$1.50 hr.

• **TEACHER,** pre-nursery and nursery trained girl needed for morning teaching in Chevy Chase co-op nursery. Feb. 1 to May 30, \$127 month for two hours each morning.

• **SENIORS AND GRADUATES PLEASE NOTE VISITING EMPLOYEES SCHEDULES:** (Sign up with Miss Coulter for time and place of interview.)

• **TUESDAY,** January 11, 9 a.m., group meeting for all interested in hearing about the Accounting and Auditor Training Program of the Department of Defense.

• **WEDNESDAY,** January 12. Individual interviews for those interested in management and sales opportunities with the Northwestern Mutual Life Insurance Company.

• **THURSDAY,** January 13. United Air Lines, recruiting stewardesses.

• **THURSDAY,** January 13 and Friday, January 14. Quaker Oats International will discuss export sales opportunities with people interested in foreign trade. Markets in Latin America make Spanish speaking students particularly desirable.

• **FRIDAY,** January 14. Great American Teachers Agency will talk to "would be" teachers at 9:30 a.m. about teaching opportunities on the East Coast.

• **TUESDAY,** January 18. W. L. Maxson Corporation, electrical engineers, electronics majors.

Goodrich Tire and Rubber Production. Chemists, engineers, sales, business administration.

TROUBADOURS

(Continued from Page 1)
the troupe members sharing such an experience.

As for the impression that the Troubadours themselves made upon the servicemen, one lonely airman in a letter to Dr. Don C. Faith, Director of Activities for Men, expressed it this way:

25 December, 1954
Thule, Greenland

Dear Sir:
I thought it only appropriate this day to thank you for making it possible for those fine people to visit our base during the Christmas season.

One who has not been away from home at Christmas cannot understand what it is to be away from your loved ones.

I was very bitter and thought the Air Force was doing a great injustice to me by keeping me away from my family and my girl.

I saw your group singing and trying to bring a little happiness to the troops. I realized then that everyone has to make sacrifices for his fellowmen in order to make this world a little better to live in. I had a very selfish attitude, but when I realized that they could be in the comfort of their homes with their loved ones, instead of on this barren rock, I felt very ashamed of myself.

If everyone in this world took the same attitude as these fine people did, our troops wouldn't have to be in this God-forsaken country. Maybe someday the world will wake up to that fact.

Again, I want to thank you from the bottom of my heart. May God bless each and every one of you.

Sincerely,
A United States Airman

Top Air Cadets Receive ROTC Student Awards

YESTERDAY AFTERNOON President Cloyd H. Marvin presented awards to five outstanding ROTC seniors at a ceremony highlighting the Air Force ROTC Cadet Corps' semester parade and review held at West Potomac Park. Five other awards were also presented to outstanding cadets.

A feature of the review, to which the entire student body had been invited, was the music of a thirty-piece Air Force Ceremonial Band from Bolling Air Force Base.

The five seniors who received Distinguished Air Force ROTC Student awards were: Cadet Lt. Colonel Richard S. Hudgins, Cadet Majors Leonard I. Weinglass and George W. Latimer and Cadet Captains John J. Heil and Donald R. Hoffeld.

In a presentation made by their deans, Cadet Major Ralph W. Furtner was awarded the Chicago Tribune Gold ROTC Medal and Cadet Airman Peter J. Wool the Chicago Tribune Silver ROTC Medal for their outstanding contributions to the Cadet Corps and their scholastic excellence. This is the first year that these medals have been presented to cadets at the University.

Awards were also presented by Colonel Carl Swyter, the Director of Air Science, to members of the Air Force ROTC Rifle Team. The recipients of these awards were: Cadet Technical Sergeant Louis L. Clipp, Marksman; Cadet Airman Ocie T. Blalock, Jr., Expert; and Cadet Airman John L. Bouquet, Sharpshooter.

Dean Oswald Colclough, Dr. Don C. Fajth and members of the Flying Sponsors Squadron were among those presented at the review.

Newly initiated members of the Flying Sponsors Squadron were presented with their commissions as Honorary Cadet Second Lieutenants in the Air Force ROTC Cadet Corps.

ContestHunts For Princess

SOME LUCKY CO-ED will be the University's princess at the twenty-eighth annual Apple Blossom Festival on April 28 and 29 at Winchester, Virginia.

Jim Rudin, Student Council chairman of the contest, has announced that any unmarried junior or senior woman taking six hours and with a 2.0 Quality Point Index is eligible for the contest upon payment of a one dollar entrance fee.

All organizations have been invited to submit the names of their

Dance

THERE will be a social dance tomorrow noon on the second floor of the Student Union.

Sponsored by the Student Council, the dance will feature Chick Wayne's Combo.

candidates to the Student Activities Office by February 7.

The winner will receive \$50 from the Student Council for her gown. Candidates will be judged on beauty and personality by three men of the faculty at a tea in Woodhull House February 8. Judging will be done by interviewing the candidates at the tea as was done at the preliminary judging of the Homecoming Queen candidates last fall.

Last year's representative from the University was Ann Quackenbush.

Social Dance Shows It's 'Woman's World'

by Frances Bran

"A WOMAN'S WORLD" was the theme of the very successful "S'lipstick Shuffle" held last Friday night in the Student Union.

Honoring the School of Engineering, the dance started off the social dance program of the new year in an outstanding fashion. The whole arrangement of the Student Union for social dances was revised to provide more seating space as well as a better view of the entertainment. The new format provides a most charming atmosphere.

To quote Barbara Stuart, Student Council Freshman Director, the audience's reaction to the "Foggy Bottom Femmes" rocked all four floors of the Union. This newly formed trio consists of Dottie Mansfield, Ann Williams and Bev Borden. Dottie emceed the entertainment with appropriate introductions to each of the songs. To open the program the trio sang, "Oh Baby Mine." Ann Williams, as a solo, sang "It's A Woman's World," while Bev later sang, "A Woman's Philosophy." Dottie followed by singing, "Try A Little Tenderness." As a climax to the entertainment, the girls sang "You Can't Get A Man With A Gun," while Ann was perched atop the piano twirling a pistol and Bev was at the keys.

Exotic, Picasso-like projections

furthered the idea of it's being a woman's world by bringing out the smile of a woman's face to the globe of the earth. The theme "A Woman's World" was thus originally and cleverly depicted in the decor by Virginia Page who is the art director for the Dance Production Groups.

Derrill Rohlfis represented the School of Engineering as host and did an excellent job making everyone feel completely at ease. Ron Dixon and Pat Reed did their usual superb job as chief host and hostess for the Dance Production Groups.

"We are very sorry to announce that this is the last dance at which Ron will emcee. He is going abroad to do church work for two and a half years. His wit, charm and feeling for the other fellow have endeared him to those who frequent the Friday evening social dances. Kitty Lee Landess should also be commended for her work in making the dances a success," said Miss Elizabeth Burtner.

Editorial

Ounce of Prevention

• THE LAST convention of the Associated Collegiate Press, held at the Statler Hotel here last year, produced the groundwork for what is now developing into what looks like a most constructive project. Known as the Southern Association of College Editors, this outgrowth of the ACP was organized "to act as a sounding board for student thought and a central body through which the editors of newspapers and yearbooks in the South can discuss their common problems and hear speakers and noted authorities on these problems.

But there was another reason, along with the social aspect, for setting up this project, one action which seems to have prompted the whole idea as a deterrent to repeated similar actions. At Louisiana State University last year, a Negro student applied for admission to study pre-law and was at first accepted. Later, this same man was refused admission to the school. The reason is obvious. And the editorial staff of the "Red and Black," student paper of the University of Georgia, realized this and said so in print, along with a blast at administration policy on the matter. The repercussions were astounding and shocking. An extremely powerful member of the state board of regents in Georgia threatened to have the newspaper banned from the campus unless such attacks stopped. The attacks continued; the staff was fired.

The HATCHET feels, along with many Southern collegiate papers, that this act struck a low blow at college journalism everywhere in this country. We are proud of the three members of the Florida Alligator whose idea it was to found the Southern Association of College Editors to guard against any further actions of this kind. Frankly, we doubt that any more disgraces of this type will occur in the near future, but it is always wise to keep your guard up against bigotry.

Inquiring Reporter

by Bunny Faber

• QUESTION: WHAT did you resolve for the New Year?

Joyce Marcus: To stop having the parking lot attendant try to park my car for me in a space too small for it.

Carolyn Cronin: I wouldn't have it in print.

Gene Thompson: I shall lead a campaign to get thicker coffee cups for use in the Student Union.

Jo Ann Levinson: I resolve to fulfill all my last year's resolutions.

Ed Casanova: To lay off intoxicating beverages. It's working pretty well. I took up smoking a pipe instead.

Phyllis Ames Wilford: So here I am. To give up watching George Gobel and study for finals instead. Also, not to feed my husband franks and beans more than once a week.

Ken Fleiger: I've resolved not to be genetically influenced by the H-bomb.

Carol Howard: Eat, drink and be merry, for tomorrow we die.

Tom Jeavons: I've made resolutions to defile women and make every effort to bring the price of beer down to a nickel.

Linda Learnard: No more hard looks for people who tease me.

Al Kay: To stop taking lend-lease from the United States and to pay my numerous debts to my fraternity brothers.

Shelley Grossman: To decide upon one definite field for a career that will satisfy all my ambitions.

Robert Czaplewski: To do something useful—study hard.

Samme Economos: Never to make any more resolutions.

Letter

Memory Tricks, Color Used In New Study Hints

Sir:

... This might be beneficial to the poor student who is worrying about his exams and appropriate study methods. The plan which is mentioned here is available in pamphlet form at the University Book Store for no cost to the student. It is made available by the Norma Pen and Pencil Company.

s/Chet McCall

Department of Statistics

• THESE STUDY hints were prepared by Dr. Daniel Brower, noted psychologist and director of psychological services for the New York Personnel Laboratory. The plan reportedly can reduce a student's study time by almost one-third while improving his marks and preventing the disastrous "over-learning blackout."

"Study Hints"

1. Study one subject an evening, or, if necessary, two diverse subjects. Studying two similar subjects may cancel each other out.
2. Tailor your study to these three psychological phases: fresh reading the first hour, complicated hard study or problem solving the second hour, review of familiar material the third hour.
3. A high plateau of maximum study efficiency can be prolonged by taking an enforced break of five to ten minutes at the end of the first study hour. Do setting up exercises, play a record, or chat with your roommate (but not about school work).
4. Save hours of time on lengthy collateral reading by

U. S. May Call Tom Brown

by Connie Kelly

• THE NEW YEAR finds the Student Council in excellent shape; it advanced rapidly in 1954 and has received high praise for its many accomplishments. However, President Tom Brown recently found out that he is subject to draft call at any time, which dampened the Council's spirit considerably.

Mr. Brown is one of the most industrious Council presidents the University has seen in recent years, and would be sorely missed. He has worked earnestly and sincerely to do a good job, and unquestionably has succeeded.

At the Student Council meeting Thursday night, Mr. Brown explained his status; if he should be drafted, Vice-President Walter Devlin would take over the gavel.

Bobbie Ruth Moore, Programs Director, announced that there will be an Air Force Concert Band with the Singing Sergeants Wednesday, Jan. 12 at Lisner Auditorium, admission free. The concert will feature popular music, as well as some semi-classical selections. All students are urged to attend and they will be assured of top entertainment.

Young GOPs Rally

• THE COLLEGE Committee of the Young Republican Club of the District of Columbia will hold a rally tomorrow at 8 p.m. at the Federal Room of the Statler Hotel. The rally's theme will be "Rising Republicanism in the South."

Five Republican Congressmen will be present to give impromptu talks and meet the audience informally: Bruce R. Alger from Dallas, Texas; William C. Cramer from St. Petersburg, Florida; Charles R. Jones from the Tenth District of North Carolina; and Joel T. Brophy and Richard Poff from the neighboring state of Virginia. According to Committee Chairman Raymond Malloy, all college students, whether devoted to Republican aims, independents, or at the present time Democrats, are most cordially welcome.

LITTLE MAN ON CAMPUS

By Dick Sibler

"I've got one student that I dread to see put up his hand."

Intercollegiate

Debate Topic Debated As Controversy Grows

by Joan Drew

• THE TUMULT and the shouting about whether or not West Point and Annapolis should debate the question of granting recognition to Red China has by no means diminished. In fact, the volume has increased to such an extent that nothing else of interest appears in the 200-odd college papers that every week pour in from across the nation to mar the charm and general neatness of the HATCHET office. "Throw 'em all out, please," we tell the janitor. And we turn with relief to the Special Digested Report on this university-shaking controversy, prepared by ACP.

This is what has happened: in the first phase the controversy, the Defense Department banned Annapolis and West Point from debating the intercollegiate debate topic and refused to budge from their position even after several mild but obvious expressions of displeasure from Ike at his press conferences.

The ripples of this pebble cast here in Washington spread and before long it was reported that certain other colleges were beginning to hedge on participating in tournaments using the controversial topic. First to withdraw was the State College at Kearney, Nebraska. Five others followed suit. Said the college president: "It is not fair to ask a debate group to spend fifty per cent of its time arguing in behalf of a government which is opposed to the policy... which our government has adopted. College debaters should not plead the cause of a country which caused the death of 120,000 American boys in the recent Korean war." He added that it might be an attempt by someone to infiltrate the minds of the college youth with Communist doctrines, the Kearney paper reported.

At Roanoke College in Virginia the authorities, apparently not wanting to go quite that far, reneged only halfway: they will take only the negative side—against recognition of Red China. The president of the college, it is reported, warned debaters that many persons might misunderstand it if the affirmative position were taken.

Then came the noise and the ink in approval and protest of the issue, and on both sides a note of hysteria. "Boy," enthuses Rutgers Targum exchange editor Paul Sude, "aren't we Americans lucky that we have a government with such immeasurable foresight, one which judiciously guides our action the right way today so that it will not have the chance of being misdirected in the future... Any semi-intelligent college man should know that if such a topic is debated, giving popular impetus

to the recognition of the Reds in the United Nations, that all of us will be more intensely subjected to the virulence of their leftist philosophy. Concluded logically some of that virulence might even grasp hold in our country, and then look at the control of free-thinking by which we will be governed.

"WE WANT THE TOPIC DEBATED!" shouts the News of New York State College for Teachers.

Louis Kraar, a columnist for the Daily Tar Heel of the University of North Carolina, has sized up the situation and writes, "... Taking up the communist side in a college debate will help students learn what they are up against. And in this particular debate on recognition of Red China, many loyal Americans by choice would take the 'communist side' favoring recognition... True loyalty—the kind that Jefferson, Paine, Emerson and Thoreau wrote of—allows protest and disagreement. Those who assume they can define loyalty in terms of what sides citizens take are assuming they can define what is a loyal American."

We humbly suggest that the next topic for intercollegiate debate be a debate whether to debate the present debate topic.

FIRE!

• WE PROBABLY wouldn't have noticed this item in the American Miller if Junior hadn't asked the other day why fire trucks are red. We spun our brain rapidly and replied that fire trucks are red so people can see them coming and get out of the way.

But that was before we read the American Miller:

"There are four men on a fire truck. Four men have eight feet. There are three feet in a yard. One yard equals thirty-six inches. Thirty-six inches divided by three inches make a ruler. Queen Mary is a ruler. There is also a boat named Queen Mary. The boat sails the oceans and the seas. Underneath the boat in the water are fishes. The fishes have fins. The Finns fight the Russians. The Russians are red. The Russians are always rushin'. Therefore, fire trucks are red."

Des Moines Register

by Hester Heale

● **HAPPY NEW YEAR.** By now it no longer seems so new or so happy, does it? Things looked a lot better to me at about 3:30 New Year's morn. Be that as it may, it's rather pleasant to be back on G Street. Lots of people seem to have survived the holidays. This columnist almost didn't make it, having existed on a diet of cheap gin and bananas during the vacations. However, my health is slowly returning as a result of the simple but nourishing cuisine of Quigley's.

Ho. Let's see what we have in the way of stizzling news in our basket. Romance has been flourishing: lovely Pi Beta Pi Ellie Boggs is now sporting a diamond from Dan Shoemaker. Lynn Staver, ADPI prexy, returned to school with an engagement ring from Art Nierra. "I've known for ages but was waiting till I could show it," said she. Another ADPI, Adel Caswell, was married to Tommy Knott of Georgetown U on December 18th. Also married on the 18th was KKG Gloria Gammeter, to Sigma Chi Jack Heckert. Sue Chaffin, Chi O, and Dick Manzano, Sigma Nu, were also married over the holidays.

Disengagements: (they're much more fun.) Judy Drew wishes to make the announcement that she is not engaged, was never engaged, and probably never will be engaged. Foul rumors were being spread to this effect.

Just plain pinnings and such: Joan Wisser is pinned to L. Baskin. Mad, gay Kappa Brandon Forrest is rumored to be pinned to mad, gay Delt raconteur "Uncle Fred" Smithwick. Never let it be said that this column has forgotten that its raison d'être is rumor-mongering. Ralph "the Gift" Gilterson is said to be on the ball and chain list. Man about town and old SAE Bernie Goodrich is carrying the torch for Ann Piggot, girl navigator, marksman, and world traveller. Ann, who was vice-commander of the sailing club, has just taken off for India, where she plans to stay about six months. She will probably climb Mt. Everest or shoot some tigers. Then there's Beta Jim ("have my own place") Rudin, seeing lots of a sweet young thing called Anita, who goes to Smith.

Enough of this romantic nonsense. What we need are those schmalz and more gemütlich. Fraught with gemütlich are those frantic midnight suppers at the TEP house . . . imported Georgia salami, no less, furnished by gourmet Herb Silver to educate the palates of his more bourgeois brothers. Intrigue: What TEP has been exchanging what gifts with what coed rapidly and recently?

Holiday tidbits: Several of the ADPI's met at Mary Lou Bishop's house, with some of them going on to Mel Martin's slumber party. Seen at Bishop's was Barbara Quarco with Delt Tom Farley, home for Christmas from MIT. On the Kappa front, there was a fine party at Judy Morse's December 27, with egg nog on tap.

Your Honeymoon IN YOUR OWN LITTLE COTTAGE Week

Each week our guests are just 12 young couples—all honeymooners. Come to your own secluded cottage with grand meals (breakfast till 11:00) at the farmhouse. Informal. No "planned program" but lots to do, alone or with other congenial young couples just starting life together too. We've delighted graduates from 562 colleges. People with your tastes. Mention dates, we'll send "THREE HONEYMOON PLANS."

The Farm on the Hill
Box 440 SWIFTWATER 5, PA.

and much mad dancing going on down in the game room. Carol Picton's party was the 29th, and a good little blasteroonie it was, with much loud singing by Deltas over by the shrimp platter. The die-hards finally wound up at the Uptown.

Pre-season pledge formal: the DG's cocktail party was at the home of veep Janie Winn, followed by dinner and dancing at Rocco Restaurant, from 9 till 1, after which Dianna Burk invited the DG's and their dates to her home for cake and coffee. Sidelights: who were the two Phi Sigs going back for 3rds during the banquet? Could be they like pickled carrots? Happy pledges seen living it up: Anne Bageant with Sig Gary Griffith; Inez Tonelli with SAE Wiley Clark; Harriet Foster with SAE Chris Catbe; and Pat O'Connell with Acacia Howie Roberts . . . dance of the evening: Aphie Macotsin with Phi Alpha Art Kirsch doing the bop, to the music of the Chic Wayne Combo . . . Gayes' table in the room: Barbara Johnson and SAE Lou D'Amico; Pat Culley and SAE Ned Harrison; and Betty Cumberly and SAE Cecil Charles; all were chortling at the urbane little stories being told by Cec. Corsages were presented to Sharlie West and Janet Virelson for all the work they had done on the homecoming float and the goat show.

Secret order unveiled: On Sunday, December 19th, at the PIKA house after their exchange with Pi Phi, the little-publicized—yes, mystery-shrouded—order of the red sash met and elected officers for the coming year. President is Tom Perrott, Phi Sig; veep, Joe Hince, Pike; secretary, Don Tuberty, Delt; social chairman, Walt Janicki, Pike; publicity, Dougal Prins, Phi Sig; collector, Chuck Forbes, and member-at-large, Bill Meade, both Phi Sigs. Other members are Mike Golf, Delt, and John Posta, Pike. Little is known about the purpose of this organization, but I suspect they meet to sing old madrigals and read aloud the poetry of Dylan Thomas.

The hazards of the voyage: we hear that ZTA Erma Flores was stranded for a day and a half in Tulsa, Oklahoma, of all places, in ten inches of snow, while on her way to the national executive board meetings of the Newman Club federation at Oklahoma A&M. Erma, who is secretary of the Newman Club here, says that the 4½-million dollar student union at that college is a joy to behold. Well, I love our old onion anyway. It has a careless charm all its own, what say, chaps? I daresay this winds us up for the week. Citizens, if you see anything interesting, don't keep it to yourself . . . tell old aunt Hester about it. I deplore writing about pinnings and blasts all the time . . . but its up to you to give foggy the poop.

End-of-Year Roundup

Successful Year Shows Interest; Spirit Takes New Lease on Life

● **LOOKING BACK** at 1954, we find that many new activities and features have appeared on our city campus. Other traditional student activities, especially clubs, have taken a new lease on life by innovations and improved planning and organization.

Pervading most of the past year's activities, both old and new, was an upsurge of school spirit. The best illustrations were the big Homecoming pep rally and variety show in Lisner

Auditorium and the pep rallies in the Student Union. The attendance and spirit exhibited at these indoor pep rallies made them probably the most talked about student activities of the entire year.

The unusually high degree of interest in the Student Council elections of last spring undoubtedly was an indication of the spirit that helped make this fall's pep rallies successful.

Innovations Made

Among the new student activities were the pep band which was started in the spring and the noon hour dances in the Student Club.

A group of enterprising students are planning a new Literary magazine, and a box for contributions is in the Student Union.

New features on campus include the revised drama program of light comedy-type plays, the Student Club located on the second floor of the Student Union, and the Campus Combo which was taken over by the Student Council during the summer. The success of the Campus Combo is a good example of both the improved school spirit and the trend of more independents participating in school activities, since about one half of the Combo buyers were independents.

Improved Clubs

On the club front there are some new ones, others have reorganized, and still others are becoming more active groups. Among the new ones is the Chemistry Club, which was organized

in the fall. The Chess Club has recently been reorganized and Phi Sigma Rho, the philosophy club, is in the same process. Groups that have been more active in the past year are the International Relations Club; Alpha Kappa Psi, the business professional club which will have a display of business machines in the spring; and the Future Teachers of America club, which has inaugurated a program of speakers at some of its meetings.

Dormitory Plans

Even Strong Hall's Dormitory

Council expanded its program in the past year. Unfortunately, however, the girls' plans for an Open House Tea Dance were interrupted by Hurricane Hazel.

The University itself has also added some new features. For example, the Cancer Clinic has recently begun functioning. Of the new course offerings, "Leadership, Group Behavior and Student Life" in the psychology department proved to be of particular interest to a good many students.

Looking ahead to the new for (See **YEAR'S END**, Page 12)

A GUIDE FOR THE DATELESS

With the cost of dating rising higher and higher (seems the only pleasure that costs the same these days is Philip Morris), it is no wonder that so many of us men are turning to discuss throwing. Naturally, we would prefer nuzzling warm coeds to flinging cold discs, but who's got that kind of money? Prices being what they are, the average man today has a simple choice: dating or eating.

Unless the average man happens to be Finster Sigafos.

Let me tell you how Finster Sigafos, a man no smarter, no richer, than you or I, solved his dating problem. Finster came to college with the normal ambition of any average man: he wanted to find the prettiest coed on campus and make her his. He looked long and carefully, and at last he found her—a tall job named Kretchma Inskip, with hair like beaten gold.

He asked her for a date. She accepted. He appeared at her sorority house that night, smiling, eager, and carrying a bouquet of modestly priced flowers.

"Now then," said Kretchma, tossing the sleazy flora to a pledge, "where are we going tonight?"

Finster was a man short on cash, but long on ideas. He had prepared several attractive plans for this evening. "How would you like to go out to the Ag campus and see the milking machine?" he asked.

"Ick," she replied.

"Well then, how about running over to the dental school to fool with the drills?"

"Bah," she replied.

"Well, what would you like to do?" he asked.

"Come," said she, "to a funny little place I know just outside of town."

And away they went.

The place was Millionaires Roost, a simple country inn made of solid ivory. It was filled with beautiful ladies in backless gowns, handsome men in dickerys. Waiters scurried about bearing costly eats on flaming swords. Original Rembrandts adorned the walls. Philip Morris trays adorned the cigarette girls. Chained to each table was a gypsy violinist.

Finster and Kretchma were seated. "I," said Kretchma to the waiter, "will start with shrimps remoulade. Then I will have lobster and capon in madeira sauce with asparagus spears. For dessert I will have loads of out-of-season fruit."

"And you, Sir?" said the waiter to Finster.

"Just bring me a pack of Philip Morris," replied Finster. "for if ever a man needed the soothing, steady, beneficent aromas of mild vintage tobaccos, it is me now."

So, smoking the best of all possible cigarettes, Finster watched Kretchma ingest her meal and calculated that every time her fetching young adam's apple rose and fell, he was out another 97¢. Then he took her home.

It was while saying goodnight that Finster got his brilliant idea. "Listen!" he cried excitedly. "I just had a wonderful notion. Next time we go out, let's go Dutch treat!"

By way of reply, Kretchma slashed him across the face with her house mother and stormed into the house.

"Well, the heck with her," said Finster to himself. "She is just a gold digger and I am well rid of her. I am sure there are many girls just as beautiful as Kretchma who will understand the justice of my position. For after all, girls get as much money from home as men, so what could be more fair than sharing expenses on a date?"

With good heart and high hopes, Finster began a search for a girl who would appreciate the equity of Dutch treat, and you will be pleased to hear that he soon found one.

Today Finster goes everywhere and shares expenses fifty-fifty with Mary Alice Hematoma, a lovely three legged girl with sideburns.

Colonial Boosters Cups Go to ZTA, Acacia During Wake Forest Game

• AT THE WAKE FOREST game December 14, the first home basketball game of the season, Colonial Boosters Cups were awarded to Zeta Tau Alpha and Acacia.

During the half time ceremonies Howard Roberts, seating chairman, announced the winners. Following this Bette Kolonia and Doris Severe Bruffey presented the cups.

These cups are awarded to the sorority and fraternity which, during the football season, gain the most Booster points.

Points are awarded for attendance at and participation in special Booster events.

These cups are awarded to the sorority and fraternity which, during the football season, gains the most Booster points. Points are awarded for attendance at and participation in special Booster events.

Runners-up in the contest were Pi Kappa Alpha and Phi Sigma Kappa, who took second and third place for the fraternities and Kappa Delta and Delta Zeta who took second and third place for the sororities.

Among the events that Boosters sponsored this fall were House Decorations for the William and

Mary game, won by Kappa Delta and Pi Kappa Alpha, and the Homecoming Float Competition, won by Chi Omega and Delta Tau Delta. Boosters also organized Cavalcades for the VMI and Virginia games and a send off for the basketball team at which car decorations were judged.

(See BOOSTERS, Page 12)

Dr. Gamow Delivers Lecture on Physics

• ALMOST 250 QUESTIONS poured in as alert students wanted to know more about how the Star of Bethlehem was formed and how the universe began.

Dr. George Gamow, professor of theoretical physics at the University and internationally famous for his theory of the chemical creation of the universe in one hour, had just finished his talk. It was his second lecture at the third annual series of Christmas lectures sponsored by the Washington Philosophical Society December 22 and 23 in Lisner Auditorium for high school students interested in science.

An outstanding scientist is chosen each year to address the

meetings. Dr. Gamow formulated his now celebrated theory of radio-active decay when only 24. From there he went on to pioneer work with atoms and the energy that binds them together or splits them explosively. He is known not only for his theories, which are used as the basis of any scientific consideration of the nature of the universe, but also for books explaining in simple layman's language even the most abstruse theories of science.

Large Audiences

Dr. Gamow addressed audiences of over a thousand students and scientists both nights. Special guests were members of the Junior Academy of Science. These lectures are designed to encourage young people in an interest in science and are patterned after the one hundred year old series of Christmas lectures of the Royal Society of London.

In "Earth, Planets, Stars and Galaxies," Dr. Gamow's first talk, he explained that the Star of Bethlehem could have been a star which exploded into a supernova. Scientists believe they can even pin-point in the heavens a star which exploded at that time.

Prediction Made

"The sun will explode in about 5 billion years," predicted Dr. Gamow in his second talk. He went on to say that at that time the sun will have used up all the fuel it is burning now and will collapse in an explosion. This was only part of his discussion of "The Origin and Evolution of the Universe" on which the audience questioned him later.

Courses which Dr. Gamow is teaching here this semester include "Philosophical Foundations of Modern Physics," a non-mathematical treatment for students who are not majors in physics and chemistry, and "Wave Mechanics." He received his doctorate from the University of Leningrad in 1926, worked in research with famous European scientists and came to this country in 1934. At present, in addition to teaching here, Dr. Gamow is consultant for Los Alamos and other research projects.

The books he has written about science for laymen include "Birth and Death of the Sun," "One, Two, Three . . . Infinity" and "Biography of the Earth." These three are available at campus stores.

R. R.

What young people are doing at General Electric

Young manufacturing expert pioneers in automation at General Electric

In 1964, our greatest shortage may be working people. This country's demand for electrical goods will be 100% greater than it is today. But there will be only 11% more workmen. How can production per man be boosted enough to close the gap?

For one answer, 31-year-old P. H. Alspach, Manager of Manufacturing Development at G.E., is exploring automation:

Automation: Continuous Automatic Production

Automation is a way of manufacturing based on the continuous-flow concept. Products will be made, inspected, assembled, tested, and packaged by a series of integrated machines in one uninterrupted flow. As industry evolves toward greater automation, more workmen will become skilled machine specialists or maintenance experts able to control complete systems.

Phil Alspach and the men under him now draft layouts for automatic systems, tackle the engineering problems involved, design automation equipment, and even build some.

23,000 College Graduates at G.E.

This is a big and important job. Alspach was readied for it in a careful, step-by-step program of development. Like Alspach, each of G.E.'s 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

PHIL ALSPACH joined G.E. shortly after graduation from Tulane (B.S. in M.E., '44), has completed G.E.'s Engineering Program, Class of 1945, and its Creative Engineering Course, 1949.

Progress Is Our Most Important Product

GENERAL ELECTRIC

Speech Notes School Trend

• DR. JOHN F. LATIMER, Professor of Classical Languages and Literature at the University, spoke at the December 30 meeting of the American Philological Association, in Boston, Mass.

He gave a talk on the "Chapeaux Bras of Education" at the Sheraton-Plaza Hotel. The meeting was sponsored jointly by the American Philological Association and the Archaeological Institute of America.

Dr. Latimer, who deplores a trend threatening to turn our high schools into "vocational bargain basements," takes his title "Chapeaux Bras" from a phrase of Benjamin Franklin's. Franklin compared the courses in Greek and Latin taught in grammar schools of his time to the "arm-hats" carried on the arms of French nobles solely for ostentatious display.

Cancer Clinic Leads Drive for New Cure

• THE DOGS at the Warwick Memorial Clinic get better treatment than some of the poor people in this country, according to Dr. H. Pierpont, director of the Surgical Research Laboratory at the clinic. As an example he cited the sun-deck and run now being constructed on the roof of the clinic's ultra modern building located at Washington Circle.

The Cancer Clinic was started a number of years ago at Garfield Hospital; then, for five years it was located at the old University Hospital. In September, 1954, it was moved to its present location on Pennsylvania Avenue.

The Clinic is supported by the University, through private grants and by Cancer Foundations such as the Damon Runyon Fund.

Borrowed Staff

It is staffed by students from the medical school, University Hospital staff members and private physicians, some of whom donate their time. The Clinic has laboratory facilities and surgical equipment for the performance of minor surgery. However, all major surgery is performed at the University Hospital. The Hospital also provides X-ray equipment and houses the in-patients since the clinic has no beds.

The Clinic staff handles approximately forty patients a day, a third of whom have cancer. Once a cancer detection is made the patient must report to the Clinic periodically.

Sliding Rates

Treatment is paid for on a sliding scale based on the patients income and dependents. If a positive identification of cancer has been made the fees are further reduced to ease the hardship of the high and continued costs of treatment.

Open to all, the clinic's hours are from 8 a.m. to 5 p.m., five days a week. As well as furnishing treatment to cancer victims, the Clinic operates a detection center.

Special research is carried on by a team of specialists among whom are Dr. Trames and Dr. Pierpont.

Varied Research

Research is now being conducted in many fields, one of the most interesting being reconstructive surgery. The ultimate aim of this research is the transplanting of whole living body tissues to replace cancerous tissue. At present this is only in the theoretical stage. However, much work has been done with the insertion of sections of dead blood vessels to

replace damaged ones removed by surgery. Employing stainless steel and plastic tubes, doctors have been able to reconstruct the chest wall and replace damaged blood vessels.

Animals Used

Experiments in this field are carried out on animals large enough to permit the use of standard operating equipment. Dr. Pierpont explained the necessity of the exact duplication of techniques and equipment that will be used on human patients. Pre and post operative care, as well as surgical techniques, are the exact duplicate of the treatment given patients at the University Hospital he said. He added that when the research reached the stage of reasonable safety, the technique in question is tried on willing patients at the Hospital.

An interesting sidelight, the Clinic has a special staff of consultants. Two veterinarians are kept on call to treat any illnesses that the research doctors themselves cannot handle. The dogs and monkeys, while actually not pets, enjoy the best possible care in their service for mankind.

Dance Group Visits School, Gives Lessons

• IN RESPONSE to an offer issued several months ago, the University's Dance Group was invited to pay a return visit to Coolidge high school to give a master lesson in modern dance.

Lillemor Spitzer conducted the master lesson as part of her work in the course "Methods of Teaching Modern Dance." Ann Clague accompanied at the piano and on the drums. Assistants were members of the top dance production groups and included Charlotte Michelson, Kitty Lee Landess, Phyllis Allen and Virgilia Dabell.

Sixty girls participated actively in the lesson which included techniques for dance, a section on the dramatic approach to dance and a problem in composing in the ABA form.

Climaxing the master lesson was the performance by Lillemor Spitzer and Tom Pence of "Breakdown in Turquoise," an excerpt from "Who's the New Gal?" which was presented in the Variety Show.

"Lillemor did a stupendous job of teaching, holding spellbound 60 girls most of whom never worked in modern dance before. The Coolidge faculty was impressed with Lillemor's ability to put the students at ease and also the reaction of the students, which was one of sheer enjoyment," says Miss Burtner.

Library Holds Exhibition Of Jane Love Sculpture

by Lee Weinrich and Ernie Auerback

• THE UNIVERSITY LIBRARY has on display through the month of January an exhibition by Jane Love, president of the Washington Sculptors Group.

Jane Love, who once stated that the trouble with art today is that it hasn't "any guts," is the winner of many awards and prizes. She has held three other one-woman shows at Barbison-Plaza Gallery, N. Y.; D. C. Public Library, and the Arena Theater in Washington. Her goal is to capture the prehistoric, the primitive in nature, the feeling of the first "impact." Mrs. Love feels that art "needs to have the force of life to be moving. The best must look like an accident."

Trained Artist

Mrs. Love received a Bachelor's degree in art from the Women's College of the University of North Carolina, and studied drawing and painting with Charles H. Walther of Baltimore, Md., and with Hans Schuler of the Corcoran School of Art in Washington. She set up, directed and taught the Sculpture Section, Arts and Skill Corps, American Red Cross in 1944.

One of Mrs. Love's most eye-catching exhibits is a copper interpretation of a water bird. With a long neck and legs of copper tubing, a head and body of pounded

silver-colored copper, and feet of sheared silver-colored copper, the bird presents itself as a unique exhibit.

Bronze Dancer

Of all the exhibits, probably none exemplifies interpretative movement, which has become such a basic part of modern sculpture, better than Mrs. Love's "Dancing Man." A piece done in somber green bronze, it is an excellent example of the artist's ability to catch the good and rhythmic movement so synonymous with the dance.

Another of her outstanding copper pieces is the Guamanian Sibyl. An unusual elongated hammered Oriental headpiece set in a dark mortar frame, it truly represents the fine hand of an expert.

The exhibition will be open to the public at the University Library Monday through Friday from 9 a.m. to 10 p.m.; on Saturdays from 9 to 5 and on Sundays from 2 to 6.

LUCKY DROODLES! LOADS OF 'EM!

WHAT'S THIS? For solution see paragraph below.

STUDENTS! EARN \$25!

Lucky Doodles* are pouring in! Where are yours? We pay \$25 for all we use, and for many we don't use. So send every original Doodle in your noodle, with its descriptive title, to Lucky Doodle, P.O. Box 67, New York 46, N. Y.

*DROODLES, Copyright 1955 by Roger Price

"IT'S TOASTED" to taste better!

STUDENTS ARE ECSTATIC about Luckies. That's the word, straight from the latest, largest college survey ever. Again, the No. 1 reason Luckies lead in colleges over all other brands, coast to coast—border to border: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. This famous Lucky Strike process tones up Luckies' light, good-tasting tobacco to make it taste even better. So be smart, like the student in the Doodle above, titled: Lucky smoker swinging in hammock. Swing to Luckies yourself. Enjoy the better-tasting cigarette... Lucky Strike.

Dr. Marvin Awards Staff's Long Service

• PRESIDENT CLOYD H. MARVIN presented awards to 41 people for service from five to 32 years, at the Custodial Awards Party held December 22, along with the annual Christmas Party.

Bernard R. James, who has served as University mailman for over 32 years, received a certificate for meritorious service. In the 25-year bracket, Elizabeth Ross and George W. Walls each received pins with chip diamonds.

Nellie F. Jones and James Weston, with 20 years' service were presented with ruby pins, and pearl pins were awarded to Mary E. Adams, Ralph Proctor and Willie Vance, all with 15 year records of service.

In the ten year bracket are: Clarence Hunter, Nellie C. Norris, Eddie Sligh, Ella P. Stewart, John E. Thompson, Charles L. Washington and Charles R. Wheeler, all of whom received gold pins.

Also, silver pins for five years' service went to: Lloyd Bogan, Florine Bowie, Otis Brantley, Margaret A. Brown, Lewis Burrell, Wade Byrd, Inez Curtins, Bennie Mae Daniels, Raleigh Kley, John E. Fields, Emanuel Fischer, Elev B. Freshley, Lucile S. Harris, Jake Harts, Uziyah Jones, Chester Lewis, Theodore R. McGhee, Cleotis McKinney, Beatrice F. Nelson, Charlie R. Odens, William

Rush, Samuel L. Smith, Tenolia E. Terry, Raleigh Thomasson and Florence Watson.

Long Beards Bring Prizes

• A BEARD-GROWING CONTEST will be initiated this year by Pi Kappa Alpha, with the starting date set at January 31.

The contest, which is open to all male students at the University, will end at the Shipwreck Ball. This annual affair will be held on February 19 from 9 to 1 at the Hyattsville Armory, admission free.

Judging will take place at the Ball, and the grand prize will be awarded to the man with the shaggiest beard. Members of PiKA will serve as judges, as no PiKA will be eligible for prizes.

The contest was originated by Joe Hince and will be conducted with the approval of President Cloyd H. Marvin.

A Shipwreck Queen will be chosen from the girls present at the dance.

Students Win New Awards

• FOUR STUDENTS in the University Medical School and a Business Administration major have received recognition for outstanding scholarship.

Arthur James Conlon has been appointed Washington Post and Times-Herald Scholar at the University for the Spring Term. Mr. Conlon was, for four years, a Navy Photographer's Mate. He is now married and is currently employed as Purchasing Agent for the Post.

The medical students are to be among the first recipients of new fellowships granted by the National Institute of Health, it was announced by Dean Walter A. Bloedorn of the School of Medicine.

It is the first time these fellowships have been made available to medical and dental students. They provide for research programs which will be carried on in addition to the student's full-time medical course.

The students chosen by the Institute include Jack Auerbach, Department of Anesthesiology, who will conduct a clinical evaluation of an antidote to the toxic effects of opiates; Leonard Berger, Department of Bacteriology, who will study naturally occurring antibiotic effects on the relationship between intestinal disease organisms and those normally present; Richard Kimmerling, Department of Pharmacology, who will do research on cancer drugs labeled with radiocarbon; and Margaret Lucille Lambert, Department of Medicine.

Pamphlet Gives Foreign Study Possibilities, Aims

• A PAMPHLET recently published by the Institute of International Education titled "Foreign Study Grants, 1955-56" describes the opportunities for foreign study in fifteen countries of which interested college students may take advantage.

Among the many awards administered by the institute, which is located in New York, are study awards at the University of Ceylon, the University of Teheran in Iran and the Free University of Berlin. Fellowships have been offered to American students for the 1955-56 academic year by universities, private groups and governments in Europe, Asia and Latin America.

A private donor will give five grants for study in Spain. Other countries in which awards are available are Austria, Cuba, Denmark, Great Britain, France Germany, Italy, Mexico, the Netherlands Sweden and Switzerland.

Graduate Study

The fellowships and scholarships are designed mainly for graduate students and the general eligibility requirements for them are U. S. citizenship, a good academic record, a capacity for independent study, good character, adaptability and good health. For most competitions the student is required to be able to speak, read and write the language of the country of study.

The deadlines for applications are January 15 for the two awards at the University of Ceylon and January 22 for advanced study in

Brazil. Closing dates of other competitions vary from February to May.

The French Government is offering the largest number of grants, forty assistantships and thirty fellowships. The closing date for these awards is February 1. Under the French Government's assistantship program, Americans will teach English conversation classes in French secondary schools and teacher training institutions.

College Teaching

A few teaching appointments in French universities will be made for applicants with special training in American literature and some experience in college teaching. The French fellowships offer opportunities for study at universities and other state institutions of higher learning.

Among the specialized grants are the Woolley Foundation awards, which will be made to four candidates for the study of art and music in Paris, and four labor scholarships given by the Transatlantic Foundations for study in Great Britain. Open only to candidates from the labor union movement are three awards given for Ruskin College, Oxford

Posters

• ALL POSTERS and notices displayed on University bulletin boards must be approved by the Business Office.

and Coley Harlech in Wales. A limited number of social work fellowships are available to experienced American social workers for work, study and observation in France.

Summer Study

For those interested only in summer school awards there are eight of them for the University of Vienna Summer School and several partial grants toward tuition at the English and Scottish summer school courses at the Universities of Oxford, Edinburgh, London and Birmingham.

The Institute of International Education administers exchange programs for public and private agencies in the U. S. and abroad. Under its auspices approximately 4000 people a year from 80 countries study or train in a country other than their own.

In addition to the listing of available awards, the Grant pamphlet suggests fields of study in the various countries such as languages and cultures, fine and applied arts and government and history.

This pamphlet and more detailed information on these grants can be obtained from the offices of the Institute, located at 1 East 67th Street, New York, N. Y.

The Lockheed Missile Systems Division

announces an advanced study program for

MASTER OF SCIENCE DEGREES

University of Southern California • University of California at Los Angeles

<p>The Lockheed Graduate Study Council offers an Advanced Study Program to enable exceptionally qualified individuals to obtain Master of Science degrees in prescribed fields. Under this plan the participants are employed in their chosen fields in industry and concurrently pursue graduate study.</p>	<p>Students who are United States citizens or members of the Armed Services being honorably separated and holding B.S. Degrees in Physics, Electrical Engineering, Mechanical Engineering, And Aeronautical Engineering are eligible. Candidates must qualify for graduate standing.</p>	<p>The technical assignment will be on the Research and Engineering Staff of Lockheed Missile Systems Division. The Advanced Study Program will be at one of the Universities named above. If a sufficient number of qualified students apply, as many as 100 awards will be granted.</p>
<p>During the regular school year the industrial assignment will be coordinated with the Study Program to permit a half-time University schedule of advanced study. During the school vacation periods participants will be employed full-time at the Lockheed Missile Systems Division.</p>	<p>Salaries will be determined by the individual's qualifications and experience in accordance with accepted current standards. Participants are eligible for health, accident and life insurance as well as other benefits accorded full-time staff members.</p>	<p>Tuition, admission fees and costs of textbooks covering the number of units required by the University for a Master of Science Degree, will be borne by Lockheed. A travel and moving allowance will be provided for those residing outside the Southern California area.</p>

How to apply:

Contact your placement bureau or write The Graduate Study Council for an application form and brochure giving full details of the program.

Hatchetman Dons Boots; Views Oklahoma Tourney

THE UNIVERSITY HATCHET, Tuesday, January 11, 1965-11

Miami Sponsors Show; Sports Car Fans Invited

by Dick Sincoff

• IT COMETH TIME to sally forth on comments of Oklahoma City, its basketball tournament (the nation's oldest), its Indians and cowpokes.

We reached the OK City—its says that in the tourist blurb—after what seemed like almost eight hours of flying time. In fact, it was almost eight hours. From snow at Chicago, we found balm, blue, sun and delight.

Amongst Indians and tall buildings, we found we lacked one of the trademarks of the Southwest, the Texas-style hat. We lacked boots and lean looks and didn't have a hundred dollar bill on us.

Best Dressed

Easily the best dressed team at the tournament, the Colonials were taken to heart by the Oklahomans. Cheered at the auditorium, smiled at and talked to on the street, we became "the nice, courteous boys from the East." We saw flannels, vests, argyles, and tweeds in wee sizes for the three-year-old set. We also saw the charcoal suit, matched with cowboy boots and a tan ten-gallon.

Tabbed as the Pride of the East by the Daily Oklahoman and the Oklahoma City Times, the Colonials picked up a healthy following during the series. Against Hank Iba's Oklahoma Aggies, the GW's were crowd-sweethearts, as they waltzed to a 56-46 win. With a clear, determined style, they also earned the respect of the visiting press.

Aggies Down

Oklahomans are disenchanted with the present edition of A. & M., which acts not at all like its ancestral winners of 11 of the previous All-College tournaments. Iba hung his head in despair and seemed to toss in the towel on his 25th Aggie club. A. and M. stumbled to three straight beatings, its worst showing in 19 years. Warming the heart more was the ease with which the Buff slowed down and crisply spanked A. & M. at its own gym.

It was the same second night out as brother Clarence Iba dumped his Tulsa Golden Hurricane onto the court and had it whipped right back at him, 66-61. Though we give Tulsa a better club, the obviously similarity between Hank's and Clarence's was unmistakable. Not only teams are similar in the Iba clan, Laddies, 'tis temperament. Both are fiery, quick squawkers who bound off the bench at the slightest provocation. During a game last year they even bounded at each other and had to be forcibly separated.

Russell Stars

San Francisco jumped from 18th to 5th in the A.P. poll following their 73-57 victory over G. W. in the finals. And now it's time to chat on Bill Russell, the excellent Negro center for the Dons. Listed officially at 6'9", Bill appears about 6'11", and is truly one of the finest collegiate players we've seen in a long time. Looking part giraffe, part gazelle, and part octopus, Russell is a symphony in muscle. Light on his feet, Bill glides down the court in five strides, uncoils like a strip of elastic and with uncanny skill slides the ball home or bats down an opponent's shot.

Voted the tournament's most valuable and a 6'7" high jumper being considered for the Olympics, Russell picked off 30 rebounds in the championship game, (G. W. got only 34), while scoring 23. This boy is smooth, lithe, graceful and an alert thinker. He seems to anticipate the moves of all ten players. Russell looks to us like All-American material and seems worth about 40 points a game to U.S.F.

Tournament notes: Hollywood's

Peggy Dow attended the three-day series, rooting U.S.F. in the finals. . . . Southwestern basketball, slower and lower scoring, is rougher than in the East. . . . Inconsistent officiating was the keynote, one pair of officials calling for the offensive team, and another pair leaning toward the defensive club. . . . Houston's Don Boldebeck at 7' was the tallest player in the tourney. . . . Sonny Hertzberg, former star of the Washington Capitals, was present as a talent scout for Madison Square Garden. . . . G. W. astounded the spectators with a broiling foul shooting exhibition, swishing 79 out of 92 attempts, and at one point against U.S.F., sinking 16 in a row. Joe Petcavich earned 15 for 16 tries, Corky Devlin 17 for 24, Buzz Ciriello 14 out

of 18, Joe Holup 17 for 22, and Jay Manning 8 out of 10. . . . G. W. used but 5 men against Oklahoma A. & M.; Holup, Devlin, Pet, Ciriello and Klein. . . . Tulsa's Bob Patterson almost pulled out a Hurricane win by himself, as he drove through 27 points, mostly soft jump shots from the foul circle. . . . Russell committed only four fouls in his 3 games. . . . One of the high schools, a good candidate for the richest in the country, had an oil well not 35 yards from its front door and two more in its back yard.

Oklahoma City, the Gateway to the Southwest, will long be remembered for its hospitality, its friendships, its Indians, oil, high two-step curbs, and its 19th annual All-College Basketball Tournament.

• COLLEGE students throughout the country will have the opportunity to witness National Sports Car Races on an American campus for the first time when the University of Miami plays host to more than 100 of the nation's top drivers February 12 and 13.

All college students who are qualified as drivers by the Sports Car Club of America are invited to send their entries to that organization as soon as possible, according to Al Patterson, general race chairman.

The University of Miami student body government is sponsoring the program, under the auspices of the SCCA, governing group of sports cars in the United States.

Admission will be \$1.25, and the proceeds will go into a fund to ex-

pand student facilities at the University of Miami. Many interesting exhibits will be featured besides the races, such as James Melton and his world collection of antique cars, and experimental and new development in the world of sports cars.

On the Court

Maryland Fades Buff-Hoya Rivalry

by Ken Hirschfeld

• WATCHING the G. W.-Georgetown basketball game last Wednesday evening, there came to mind the old rivalry games between the two schools. Gone from the game was the underlying tension that always prevailed before these contests. The attitudes of the opposing teams were in such contrast as to what they once were. Whereas each used to take the court feeling the great pressure of a rivalry game, Wednesday's tussle showed the Colonials wearing an air of superiority. Across the court were the "underdog" Hoyas—who knew it. As the game progressed it was obvious that each of the teams realized its standing—GW the conqueror, Georgetown the conquered.

There was a time, not many years gone, that this encounter was pointed to by each team as the criterion for a successful sea-

• RESULTS of the Intra-Sorority Athletic Board bridge tournament:

- 1st—Sigma Kappa
- 2nd—Kappa Delta and Kappa Kappa Gamma (tie)
- ISAB ping-pong tournament will be held tonight at 8:30 p.m. in the gymnasium. Forfeit time is 8:45 p.m.

son. No matter how well either team was doing during the year, the records were discarded before the GW-Georgetown skirmish. And it was the case many times where the underdog team would come through with an exciting and hard fought victory. But now when the G Streeters can march over to Georgetown's home court (where they practice daily) and bring home a twenty-point triumph, then the intense struggles that once loomed with the Hoyas seem to have vanished.

Perhaps our rivalry has switched from Georgetown to the University of Maryland. In recent years, these meetings with the Terrapin hoopsters have proved to be the exciting, hard-fought and nerve-wracking games. These battles pit a fast-breaking, sharp-shooting Colonial aggregation against a slow-moving well-drilled Maryland team that will take advantage of every opponent's mistakes.

It is this clash in style of play that probably makes this rivalry one of uncertainty, where on any given day either team is capable of trouncing the other. This is obviously seen in the attitudes of the players before a Maryland game, when a small break might be cited as being the difference between victory and defeat.

Whichever way I look at the situation, the feud between Georgetown and GW has been dwindling, while the GW-Maryland competition has been intensified with the passing years.

BOOSTERS

(Continued from Page 8)

The indoor pep rallies, which were such a success this fall, were sponsored by Boosters, who also organized the train trip to Philadelphia to the Penn game. Although the trip was not such a great success as hoped for, Boosters is planning to repeat something of the same nature next fall.

Students are reminded that basketball passes, entitling the holders to sit in the Boosters section, are still on sale for a dollar.

Girl Shooters Chose Vet As New Manager

• THE WOMEN'S RIFLE Club will begin its 1955 season with a new manager, Coach Helen Harris announced last week. Betsy Reed, who was elected varsity team manager last year, has resigned and will be succeeded in that position by Fritz Irelan.

Betsy fired on the Women's Varsity Rifle Team in 1954 and received several proficiency awards. She qualified for the National Rifle Association Marksman Award and Intercollegiate Marksman and Sharpshooter awards. Fritz Irelan, who is taking over the managerial job, is a newcomer to the club. A former WAC officer, she holds the Army's Expert badge for marksmanship with the carbine.

The Rifle Club expects to fire the first of its series of intercollegiate competitions in the middle of this month. Club members with the highest scores in practice ring will form the team for this first match, which will probably be against either the University of Maine or the University of Rhode Island.

Mrs. Harris said that a varsity team will not be definitely selected until after the intramural competitions. Scheduled to begin shortly, the Intramurals will include both individual and team matches.

Coach Harris explains that the selection of a varsity team does not mean that late-comers to the Club will be unable to fire in the intercollegiate competitions. Interested women who join the Club now, or later in the season, and attain the necessary marksmanship proficiency will always have a chance to fire with the team.

The coach invites interested women, including evening students, to see her in the rifle range in the basement of Corcoran Hall between 1 and 3 p.m. on Tuesdays and Thursdays. These are the regular practice hours. For women unable to meet this schedule, special night practices are held at the range from 7 to 8 p.m. Mondays and Wednesdays. Information seekers who cannot come to the range during either of these practices can leave their names and addresses on the bulletin board outside the range.

LETTER

(Continued from Page 4)

you concentrate only on what has given you trouble in the past. If you keep going over material you know, it may result in a memory block or an "over-learning blackout."

12. Start reviewing at least a week before midterms and finals. The day before, read over all your notes checked in red or green. The night before, have a good time but get to bed early. One hint... don't take a thirty-second peek into your notebook the day of the exam. You're sure to find something you think you don't know. This will lead to anxiety or panic during the exam.

Rudin's Ramblings

by Jim Rudin

• SOME RANDOM thoughts occur to this reporter as the basketball season passes the one-third mark. One gets the impression from this vantage point that there are no "Super Teams" this year. The defeats of Kentucky and our Steel Bowl victims, Duquesne, over the week end seems to point up this fact.

Kentucky hadn't lost on their home floor in over ten years, and the Pittsburgh Dukies had whipped St. Francis quite handily a few weeks ago. We know now what the same St. Francis club did to the Dukies last Saturday night.

We must remember that La Salle and Utah have been beaten, and there is not one major unbeaten five left in the country. This includes, our Oklahoma City tormmeters, the San Francisco Dons. With two-thirds of the season remaining, it promises to be a horse race as far as national honors go.

Another thought struck us last week end. Several of the Colonials will be ineligible to participate in the NCAA playoffs if the Buff get that far. Any player who has been on the varsity more than THREE YEARS can not take part in the post season scramble for national honor. Men like Buzz Ciriello, Ed Catino, Ernie Ortiz, and Jack Vaile fall in the above category.

As for the team itself, no comment is needed. The Colonials are one of the best basket ball teams in America. The defeat at the hands of Richmond can be chalked up to the law of averages. After all, the Spiders had NEVER beaten the Buff. Perhaps our victory famine with North Carolina State

• ANOTHER NEW basketball procedure has been developed: Present your Exchange Ticket Card, Student Activity Book and Student Booster Card to Mr. Scott—Ticket Manager—in Ticket Office, Lisner Auditorium, front lobby, in exchange for a Reserved Seat Ticket.

It is urged that you follow this procedure several days in advance of each home game. Obtain your Reserved Seat Ticket on campus and DO NOT wait until the night of the home game either at Uline Arena or the Washington & Lee gymnasium in Arlington, Va. This will enable you to avoid the congestion at the ticket windows the night of the game.

Basketball Ticket Office in Lisner Auditorium is open each day of the week except Saturday and Sunday from 10 a.m. to 6 p.m.

Remember! Seating space for the Duke-Furman-Army games at the W-L gym in Arlington is greatly limited in seats available for spectator use. Best seats go to the early applicants.

will come to an end. We haven't triumphed over the Raleigh school since 1942.

A few other stray thoughts came to us. The national polls are most deceptive. They do not represent the true worth of a team, and they cause extra pressure and tension. Granted that it is great publicity, but it places an undue burden on team and coach alike. One defeat and our voting "friends" leave us. Everyone loves a winner, but the boys who vote in the polls feel a team must win every game even if the schedule calls for thirty contests. The "experts" usually fail to take in account home crowds, home officiating, psychological factors, illness, and the rest. Thus, our opinion of national polls is none too good. It's what a team does in the playoffs and tournaments in March that count. It's what they think of us in two months that matters.

Finally, a word about the individuals on the Colonials. Jay Manning is rounding into the scoring form that many expected. George Klein's point total is way off from last year. Inconsistent Joe Fetacovich may turn into a great help or a distinct hindrance. Coach Bill Reinhart is still having forward trouble.

by Jay Howard

• WELCOME BACK from vacation! Hope everyone got a good rest. However, all intramural participants will get back into shape as the department plans a full schedule for the next two months, including boxing, wrestling, badminton and softball.

Law Applicants May Take Test

• THE UNIVERSITY has been designated as a testing center for the nationwide administrations of the Law School Admission Test on February 19, April 23 and August 6, 1955, Harold G. Sutton, Director of Admissions at the University, has announced.

Depending upon the law school to which they wish to make application, college seniors, juniors and in some instances sophomores are eligible to take the tests. Each applicant should find out as soon as possible from the law schools in which he is interested whether he should take the test and on what date.

The Law School Admission Test is prepared and administered four times a year, in November, February, April and August.

Application blanks and a bulletin of information describing registration procedures and containing sample test questions should be obtained four or five weeks in advance of the testing date directly from the Law School Admission Test, Educational Testing Service, 20 Nassau Street, Princeton, N. J. Applications must be mailed so as to be received at the Princeton Office not later than ten days prior to the testing date chosen, Director Sutton advised.

YEAR'S END

(Continued from Page 5)

1955, there will be a big name keynote speaker at the Career Conference. There will be a better-planned Activities Fair under the new philosophy worked out last year that new students should concentrate first on grades and then on activities, after good grades have been earned. For the Colonial Cruise Spring Outing a definite attempt will be made to have alumni and faculty members attend, as well as students. The Student Council will reappropriate rooms in the Student Union Annex for the use of clubs and activities, based on their needs. On the basis of such plans, 1955 should be another pleasant and eventful year for students.

Over the week end, basketball got back into full swing as 20 teams clashed head on. In Saturday competition, the

HOWARD Kappa Sig, 52-12,

showing one of the finer zone defenses in intramural ball this season. Bud Watwood was high for the G Streeters with 16 markers. Another League score was the Bears 72, Law School 21, Thompson pushing through 28 for the winners.

In League B, the Med School B team, led by Bob Ratzer with 18 points, walked over the ROTC. The Newman Club downed Acadia, 30-25, and Delta Theta Phi law fraternity trounced Welling Hall, 34-24.
